PROFESSIONAL SUMMARY

Senior frontend developer with 4 years of experience tackling challenging UX problems and transforming business needs into smooth digital experiences. Successfully delivered solutions for startups and enterprises through production launch, consistently addressing both user and business requirements. Proven track record in leading frontend teams and building user-friendly interfaces for complex applications.

EDUCATION

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2022	Bachelor of Technology (Computer Science)	Samrat Ashok Technological Institute	7.94 CGPA
2017	Intermediate (Class XII)	Saint Vidhya Sagar Convent	83.0%
2015	Matriculation (Class X)	Saint Vidhya Sagar Convent	8.0 CGPA

EXPERIENCE

Zuru Tech

January 2026 - Present

SDE II

- Team Leadership & Engineering Culture:** Managing a frontend sub-team of 3 developers; streamlined sprint workflows, established strict code review guidelines, and introduced standardized state management patterns across active repositories.
- MES Migration & Architecture:** Driving the core architectural design to migrate the legacy Manufacturing Execution System (MES) for China production units to a unified Next.js and PostgreSQL stack, significantly reducing client-side bundle sizes and latency.
- Performance Optimization & Boilerplates:** Developed production-ready boilerplates and proof-of-concepts (PoCs) featuring optimized Server-Side Rendering (SSR) strategies, complex layout caching, and robust data-fetching layers to ensure smooth real-time data streaming.
- Technical Requirements Gathering:** Partnering closely with industrial manufacturing product owners to translate complex shop-floor automation workflows into highly modular, decoupled frontend technical specifications and UI architectures.

Emgage HRMS Solutions

July 2024 - Present

Frontend Developer

- Product Owner – Customer Onboarding Portal:** Took full ownership of the Customer Onboarding Portal, leading the project from concept to deployment. Developed the entire frontend independently and contributed to approximately 30% of the backend, collaborating closely with a backend developer responsible for the remaining functionality.
- Took ownership** of the complete frontend lifecycle, reviewing and approving all UI/UX designs while mentoring the UI/UX team and guiding frontend interns.
- Handled** and managed the frontend team, providing guidance and mentorship to build scalable frontend solutions under my supervision.
- Enhanced** user experience by researching and integrating the Mantis Dashboard theme into the existing application, improving design consistency and usability.
- Led** frontend deployment processes using Jenkins and MobaXterm, and built scalable, maintainable features with TypeScript, TanStack Router, Zod, and Zustand.

Go Highers Infotech

May 2022 - June 2024

React Developer

- Consistently showcased** high technical proficiency, particularly with React.js for dynamic user interfaces and Next.js for server-side rendering and web performance optimization.
- Developed and deployed** a software update, reducing system errors by 30% and improving application performance by 25%.
- Managed** the full lifecycle of application development, from planning and design to implementation and deployment.
- Enhanced** client satisfaction by 20% through problem-solving and delivering desired results in multiple projects.

TECHNICAL SKILLS

Programming Languages

HTML5, CSS3, JavaScript (ES6+), TypeScript, Java

Frontend Technologies

React.js, Next.js, Redux, Zustand, Express.js, Bootstrap, Tailwind CSS, MUI, Mantine

Backend & Database

Webpack, Jenkins, Git, Zod, PostgreSQL, MongoDB, REST APIs, GraphQL, Node.js

CERTIFICATIONS

Newton School Coding Bootcamp | Newton School

August 2021

- Completed intensive full-stack web development bootcamp with comprehensive training in problem-solving and modern technologies
- Technical skills: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Node.js, Express.js, MongoDB. Participated in annual hackathons
